Water isnt a priority is it? At least not next to Holt Group or the ever expanding parks and wrecks department.. Taft and the mayor are about free day care and anything but mandated services..

I remember mandated services...water, sewer, police coverage and roads.. which the State and Federal Government consider to be first priorities, and Taft opposed every step of the way..

I also remember the concept of a budget... which didn't include borrowing a million dollars or so to tide us over much less jeopardize us for years.....

The questions to ask are would you drink the water or give it to your kids.... period..

And why not?

If the Town said it was safe would you? all thats being tested for at this point is coliform..

I remember when cigarettes were reccomended by 9 out of 10 Dr's.. X rays were given by the bucket full, asbestos was used to insulate schools and Trans fats were mankinds salvation...

Would you give that bottle to your baby?

Alex Taft would.. so would Huntley, the council and Tafts self absorbed minions..

I'm not done with the CDBG funds..... or the idiots that want to waste them..

I'm not against a rec center that only benefits 5% of Quartzsite.... I'm merely saying now is not the time and we have to think about 100% of the Town...
