

Mr. Mayor  
Quartzsite, AZ

June 23, 2010

Dear Mr. Mayor or Mayor Foster ~

I was so embarrassed to be from Quartzsite Tuesday,

How can these people sit in those chairs and refuse to tell the truth and refuse to make the town manager people that have been ENTRUSTED with our money to tell what happened to it?

They insist on all this smoke and mirrors. Well we all know where that comes from, don't we.

I hope you keep calling every authority in the entire state until something gets done!! What are they DOING at town hall? And I want to ask who YOU think has taken off with all that money.

I am not an official but I can do basic math and I just want to tell the whole town to DO THE MATH!

You have NOTHING to gain by making this an issue. It just makes the town look bad. But these people are thieves and they have to be stopped or there won't even BE a Quartzsite when they're through.

I am ashamed of our town, our elected leaders, our town employees. HOW can they justify this? Do they think we don't KNOW that they're hiding these numbers for a reason? That we don't know enough to look past their ridiculous grandstanding and realize there's money missing? That's OUR MONEY. These people haven't invested anything in the town or for the people of the town for all these years the way so many of us have. You can tell by their attitudes they're not going to allow the Mayor to even do his job.

And now they're caught.

Well well.

You new Councilpeople get the job done. Get these numbers for a mayor that finally has the guts to stand up to the thieves that have been robbing us for years. Look around you! Don't you realize that they don't give us anything because they pocket it all before it ever gets to the people? You are going to get buttered with the same brush if you don't stand up to them.

The only thing that will stop this Mayor is to quit and he doesn't look like that's too likely. DO THE RIGHT THING! STAND UP FOR US! DO THE JOB YOU WERE ELECTED TO DO! WE NEED YOU TO DO THAT JOB OR GO HOME!

Thank you, Mayor, for having the guts to do this job. You're a lot like having the Calvary ride in.

God Bless You.
