Ed,

Keep up the good fight! I have been following you for a few months and believe you are right on track. Open government allows the people to to check the abuse of power. They sure look dirty!

In Ohio the state audits all subdivisions. (i.e. city -county-village) Doesn't Arizona?

I hope to visit Quartzite this winter and hope to meet you. If everything works out I'll stay a few months.

Watch your back!

Gary
